PRINCIPAL'S MESSAGE:

Hello families,
I'm so excited to share with you the great things that your middle school students has been engaging in over the past few weeks.

They have been practicing using their assigned locks. Learning about teacher expectations and class room routine, and learning about the expected behaviors and learning mindset that every successful middle school student practices.

Our students have also had the chance to improve on their last Spring's MAP assessments scores for Reading and Math. Students were given the opportunity to preview their past scores and set goals for how they will increase their overall performance on the initial fall assessments, and I'm happy to share that students did a really great job setting their baseline score for this upcoming year.

If students can consistently aim to improve their baseline performance, our hope is that we will see measured improvement on their overall Ohio State Test.

Please support us by reminding your child(en) how important it is to take these test seriously. And also ensure that your child is coming to school consistently.

With your help, I know that we can improve our students overall academic performance.

Until next time,
Principal Rosser

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older certain rights with respect to the students' education records. Please ask your child about the document they must bring home to you for sign-off. We value the privacy of all of our students and want to partner with every parent to

ensure this law is upheld here at A+ Arts Academy Napoleon Campus. If your child does not bring home your copy of this notice please check your email for the documents.

FALL SPORTS:

Parents please help prepare your child to sign up to play a school sport.

Any student interested in playing a school sport must have a **recent physical on file with the school.**

Career Interest Coursework:

We are so excited about our student engagement with Learning Blade. **Learning Blade** is a digital platform that helps our 7th and 8th grade students explore exciting careers and technologies.

Our goal is to start the conversation with students about career options they have. Some of those options don't require a 4 year degree but still offer successful career choices.

School Emergency Operation Plan

Parents your child should bring home your informational pamphlet about the procedure for when we do as a school for emergency situations. Please check with your child to get your copy of this document. But you they do not bring yours home, than you will receive a copy via our parent group email mailings. Please read this document and keep for your records.

In this document, we highlight what to do during and emergency, what steps to follow for school closure, and the procedure the district follows for active incidents involving student evacuations.

Starting the year: Benchmark Assessments

Parents you will be excited to know that your child has been actively engaged in establishing their current baseline or benchmark data for their Reading and Math MAP assessments. Most if not all students have finished their assessments and have their target scores they know they need to improve on.

Please help support our efforts to increase our students performances in Reading and Math for the MAP test because these test are the best predictors of how our students will perform on the state assessments in April.

Parent Engagement

Parents are you interested in partnering with your child's school to learn more about what resources we can offer you, and have the chance to participate in free workshops designed to meet your needs?
